DocuSign

Last Modified on 11/09/2025 1:42 pm EDT

RentalPoint3 can be configured to connect with your subscription to DocuSign, in order to request and receive digital signatures from clients when requesting quotes, booking hardcopies, etc. DocuSign is a third-party application, and a subscription is necessary to use this functionality.

 Alternatively, RentalPoint Electronic Signature functionality is also available using RPSign (no third party software needed)

Using DocuSign in RentalPoint3

Producing your Document

What your customer will see

Receiving Your Signed Documentation

E-Signature Documents

Configure RentalPoint3 DocuSign Integration
